I. SELECTED SCHOOL LAWS RELATING TO AREA SCHOOLS AND PUBLIC COMMUNITY
AND JUNIOR COLLEGES

CHAPTER 280

The sections of Chapter 280 which would be applicable
to junior and community colleges are:

280.18 Junior colleges

280.19 Bonds for community or junior colleges

280.21 Proceeds from sale of junior college

280.18 Junior colleges. The board, upon approval of the state superintendent of public instruction, and when duly authorized by the voters, shall have power to establish and maintain in each district one or more schools of higher order than an approved four-year high school course. Said schools of higher order shall be known as public community or junior colleges and may include courses of study covering one or two years of work in advance of that offered by an accredited four-year high school. The state superintendent of public instruction, subject to the approval of the state board of public instruction, shall prepare and publish from time to time standards for community or junior colleges, provide adequate inspection for community or junior colleges, and recommend for accrediting such courses of study offered by community or junior colleges as may meet the standards determined.

Provided, however, that when a proposition to authorize the establishment of a community or junior college is submitted to the electors, such proposition shall not be deemed carried or adopted, anything in the statutes to the contrary notwithstanding, unless the vote in favor of such authorization is equal to at least sixty percent of the total vote cast for and against said proposition at said election.

Nothing in this section shall prohibit any school district that now has a community or junior college from temporarily discontinuing the same and starting it again at some future time. Ch. 27, 31, 35 sec. 4267b1; Ch. 39, sec. 4267.1; Ch. 46, 50, 54, 58, 62, sec. 280.18, 61 G.A., Ch. 247, sec. 35.

280.19 Bonds for community or junior colleges. Subject to the approval of the voters thereof voting at an election called and held in the manner prescribed by chapter 296¹ as amended, any school corporation which is presently operating a public community or junior college, or any school corporation which may hereafter establish a public community or junior college as permitted and provided for in section 280.18 is hereby authorized to contract indebtedness and issue general obligation bonds to an amount which, together with all other indebtedness of said corporation does not exceed five percent of the actual value of the taxable property within said school corporation, as ascertained by the last preceding state and county tax lists, for the purpose of providing funds to defray the cost of building, furnishing, reconstructing, repairing, improving or remodeling a public community or junior college building or buildings and additions thereto, and procuring a site or sites therefore, and for any one or more of such purposes, provided that the vote in favor of the issuance of such bonds shall be equal to at least sixty percent of the total vote cast for and against said proposition at said election. Taxes for the payment of said bonds shall be levied in accordance with chapter 76,² and said bonds shall mature within a period not exceeding twenty years from date of

²Appendix item two.

issue, shall bear interest at a rate or rates not exceeding five percent per annum and shall be of such form as the board of directors of such corporation shall by resolution provide. The proposition of issuing said bonds may be submitted to the voters of any school corporation at the same election at which the proposition of establishing and maintaining a public community or junior college in said corporation is voted upon.

The board of directors of any school corporation which has heretofore established or which may hereafter establish a public community or junior college is hereby authorized to apply for and accept federal aid or nonfederal gifts or grants of funds and to use the same to pay all or any part of the cost of carrying out any building program or to pay any bonds and interest thereon issued for any of the purposes hereinbefore specified. 60G.A., ch 179, sec. 1, 60ExG.A., ch 11, secs. 1, 2.

280.21 Proceeds from sale of junior college. Irrespective of the provisions of chapter 297, any school corporation which has heretofore sold or may hereafter sell any public community or junior college building, buildings, or other related property, whether under the provisions of chapter 280A or otherwise, is hereby authorized to use the proceeds of such sale to pay all or any part of the cost of building, furnishing, reconstructing, repairing, improving, or remodeling a schoolhouse or schoolhouses, or additions thereto, or for procuring a site or sites therefor, or any combination thereof, even though all of the bonds which may have been issued by such school corporation to pay the cost of the building, buildings or property sold have not been paid and retired; provided, however, that the proposition of using the money derived from such sale for any one or more of the foregoing purposes must first be submitted to and approved by the voters of the school corporation at an election called and held in the manner hereinafter provided. The election may be called by the board of directors of the school corporation on its own motion, and notice of the election shall be published once each week for four consecutive weeks in a newspaper published in the school corporation, or if there is none, in a newspaper published in the county and of general circulation in the school corporation. The election shall be held on a day not less than five nor more than twenty days after the last publication of the notice. The preparation of the ballot, the appointment of election officials, and other details of the election shall be governed by the statutory provisions otherwise applicable to regular school elections. No such proposition shall be declared carried unless the affirmative vote is equal to at least sixty percent of the total vote cast for and against the proposition at the election. If physical plant facilities are to be located in more than one county, the county superintendent of the county in which the school or college administrative offices are to be located shall be responsible for calling and conducting the special election. 61GA, ch 247, sec. 11.

280A.12 Governing board. The governing board of a merged area shall be a board of directors composed of one member elected from each director district in the area by the electors of the respective district. The member so chosen shall be a resident of the district in which the vacancy occurred and shall serve until the next annual school election, at which election a member shall be elected to fill the vacancy for the balance of the unexpired term. A vacancy shall be defined as in section 277.29.³ No member shall serve on the board of directors who is a member of a board of directors of a local school district or a member of a county board of education. 61GA, ch 247, sec. 12.

³Appendix item three.

The board of directors shall thereafter organize on the first Monday in October of each year. Organization of the board shall be effected by the election of a president and such other officers from the board membership as board members so determine. The board of directors shall appoint a secretary and a treasurer who shall each give bond as prescribed in section 291.24 and who shall each receive such salary as shall be determined by the board. The secretary and treasurer shall perform such duties as are prescribed in chapter 291 and such additional duties as the board of directors may deem necessary. The frequency of meetings other than organizational meetings shall be as determined by the board of directors but the president or a majority of the members may call a special meeting at any time. 61GA, ch 247, sec. 13.

280A.14 Expenses prorated. All expenses incurred in electing the initial board of a merged area shall be prorated among the several county school systems included in the area, in the proportion that the value of taxable property in each county school system or any portion thereof which is part of the merged area, bears to the total value of taxable property in the area. The superintendent responsible for calling and conducting the election shall certify to each county board of education the amount which each board owes. 61GA, ch 247, sec. 14.

280A.15 Conduct of elections. The nomination of candidates, preparation of ballots, and canvass for all elections of members of the board of directors of an area vocational school or an area community college, except as otherwise directed, shall be conducted in the manner provided in sections 273.5,⁵ 273.6,⁶ and 273.7⁷ for members of county boards of education. Nomination papers in behalf of a candidate shall be filed with the secretary of the board of the merged area. Each candidate shall be nominated by a petition signed by not less than fifty qualified electors of the district from which the member is to be elected. The board of directors of each respective merged area shall be responsible for causing the printing of election ballots and the printing of necessary forms used by judges and clerks of election and by secretaries of local school districts in making election returns. The votes cast in the election shall be returned to the respective boards of directors of the merged areas who shall canvass the vote and issue certificates of election as prescribed in section 273.7. Members elected to the board of directors of a merged area shall qualify by taking the oath of office prescribed in section 277.28. 61GA, ch 247, sec. 15.

⁷Appendix item seven.

280A.16 Status of merged area. A merged area formed under the provisions of this chapter shall be a body politic as a school corporation for the purpose of exercising powers granted under this chapter, and as such may sue and be sued, hold property, and exercise all the powers granted by law and such other powers as are incident to public corporations of like character and are not inconsistent with the laws of the state. 61GA, ch. 247, sec. 16.

280A.17 Preparation of budget. The board of directors of each merged area shall prepare an annual budget designating the proposed expenditures for operation of the area vocational school or area community college. The board shall further designate the amounts which are to be raised by local taxation and the amounts which are to be raised by other sources of revenue for such operation. The budget of each merged area shall be submitted to the state board no later than June 1 preceding the next fiscal year for approval. The state board shall review the proposed budget and shall, prior to July 1, either grant its approval or return the budget without approval with the comments of the state board attached thereto. Any unapproved budget shall be resubmitted to the state board for final approval. Upon approval of the budget by the state board, the board of directors shall prorate the amount to be raised by local taxation among the respective county school systems, or parts thereof, in the proportion that the value of taxable property in each system, or part thereof, bears to the total value of taxable property in the area. The board of directors shall certify the amount so determined to the respective county auditors and the boards of supervisors shall levy a tax sufficient to raise the amount. No tax in excess of three-fourths mill shall be levied on taxable property in a merged area for the operation of an area vocational school or area community college. Taxes collected pursuant to such levy shall be paid by the respective county treasurers to the treasurer of the merged area in the same manner that other school taxes are paid to local school districts.

It is the policy of this state that the property tax for the operation of area schools shall not in any event exceed three-fourths mill, and that the present and future costs of such operation in excess of the funds raised by such three-fourths mill levy shall be the responsibility of the state and shall not be paid from property tax. The general assembly in 1971 shall review the need for and the advisability of such three-fourths mill levy. Ch. 244 (S.F. 616), sec. 12, 62nd G.A.

280A.18 Other funds received. In addition to revenue derived by tax levy, a board of directors of a merged area shall be authorized to receive and expend:

1. Federal funds made available and administered by the state board, for such purposes as may be provided by federal laws, rules and regulations.

2. Other federal funds for such purposes as may be provided by federal law, subject to the approval of the state board.

3. Tuition for instruction received by persons who reside outside the area, or by persons twenty-one years of age or over or who are high school graduates residing within the area.*

4. State aid to be paid in accordance with the statutes which provide such aid.

5. State funds for sites and facilities made available and administered by the state board.

6. Donations and gifts which may be accepted by the governing board and expended in accordance with the terms of the gift without compliance with the local budget law. Ch. 244 (S.F. 616), sec. 13, 62nd G.A.

*(Editor's note: This section was amended by striking the state board's tuition - approving power. The balance of the section was not changed.)

280A.19 Acquisition of sites and buildings. Boards of directors of merged areas may acquire sites and erect and equip buildings for use by area vocational schools or area community colleges and may contract indebtedness and issue bonds to raise funds for such purposes. 61GA, ch 247, sec. 19.

280A.20 Payment of bonds. Taxes for the payment of bonds issued under section 280A.19 shall be levied in accordance with chapter 76. The bonds shall be payable from a fund created from the proceeds of such taxes in not more than twenty years and bear interest at a rate not exceeding five percent per annum, and shall be of such form as the board issuing the bonds shall by resolution provide. Any indebtedness incurred shall not be considered an indebtedness incurred for general and ordinary purposes as prescribed under section 407.1.⁸ 61GA, ch 247, sec. 20.

280A.21 Election to incur indebtedness. No indebtedness shall be incurred under section 280A.19 until authorized by an election. A proposition to incur indebtedness and issue bonds for area vocational school or area community college purposes shall be deemed carried in a merged area if approved by a sixty percent majority of all voters voting on the proposition in the area. 61 GA, ch 247, sec. 21.

280A.22 Additional tax. In addition to the tax authorized under section 280A.17, the voters in any merged area may at the annual school election vote a tax not exceeding three-fourths mill on the dollar in any one year for a period not to exceed five years for the purchase of grounds, construction of buildings, payment of debts contracted for the construction of buildings, purchase of buildings and equipment for buildings, and the acquisition of libraries, and for the purpose of maintaining, remodeling, improving, or expanding the area vocational school or area community college of the merged area. 61GA, ch 247, sec. 22.

280A.23 Authority of area directors. The board of directors of each area vocational school or area community college shall:

1. Determine the curriculum to be offered in such school or college subject to approval of the state board. If an existing private educational or vocational institution within the merged area has facilities and curriculum of adequate size and quality which would duplicate the functions of the area school, the board of directors shall discuss with the institution the possibility of entering into contracts to have the existing institution offer facilities and curriculum to students of the merged area. The board of directors

⁸Appendix item eight.

shall consider any proposals submitted by the private institution for providing such facilities and curriculum. The board of directors may enter into such contracts. In approving curriculum, the state board shall ascertain that all courses and programs submitted for approval are needed and that the curriculum being offered by an area school does not duplicate programs provided by existing public or private facilities in the area. In determining whether duplication would actually exist, the state board shall consider the needs of the area and consider whether the proposed programs are competitive as to size, quality, tuition, purposes, and area coverage with existing public and private educational or vocational institutions within the merged area.

2. Change boundaries of director districts in merged areas after each decennial census or change in boundaries of the merged area to compensate for changes in population if such population changes have taken place.

3. Have authority to determine tuition rates for instruction as authorized under section 280A.18, subsection 3. Tuition for residents of Iowa shall not exceed the lowest tuition rate per semester, or the equivalent, charged by an institution of higher education under the state board of regents for a full-time resident student. Tuition for nonresidents of Iowa shall be not less than one hundred fifty percent and not more than two hundred percent of the tuition established for residents of Iowa. Tuition for resident or non-resident students may be set at a higher figure with the approval of the state board. A lower tuition for nonresidents may be permitted under a reciprocal tuition agreement between a merged area and an educational institution in another state, if the agreement is approved by the state board.

4. Have the powers and duties with respect to such schools and colleges, not otherwise provided in this chapter, which are prescribed for boards of directors of local school districts by chapter 279.⁹

5. Have the power to enter into contracts and take other necessary action to insure a sufficient curriculum and efficient operation and management of the school or college and maintain and protect the physical plant, equipment, and other property of the school or college.

6. Establish policy and make rules, not inconsistent with law and administrative rules, regulations, and policies of the state board, for its own government and that of the administrative, teaching, and other personnel, and the students of the school or college, and aid in the enforcement of such laws, rules, and regulations.

7. Have authority to sell any article resulting from any vocational program or course offered at an area vocational school or area community college. Governmental agencies and governmental subdivisions of the state within the merged areas shall be given preference in the purchase of such articles. All revenue received from the sale of any article shall be credited to the funds of the board of the merged area.

8. With the consent of the inventor, and in the discretion of the board, secure letters patent or copyright on inventions of

Letters patent or copyright on inventions when so secured shall be the property of the board of the merged area and the royalties and earnings thereon shall be credited to the funds of the board.

9. The area board, when setting the salary of the area superintendent, shall take into consideration the salaries of administrators of educational institutions in the area and the enrollment of the area schools; the salary range shall be from seventeen thousand dollars to twenty-five thousand dollars per annum. The superintendent shall not be required to hold any teacher's certificate. Ch. 244 (S.F. 616), sec. 14, 62nd G.A.

(Editor's note: Subsections 1, on curriculum approval; 3, on tuition, and; 9, on salary and qualifications of the area superintendent were written or rewritten by the 62nd G.A. The balance of the subsections remain the same as when enacted by the 61st G.A.)

280A.24 Area community college. The board of directors of a merged area initially organized for the establishment of, and which is operating, an area vocational school may with the approval of the state board expand the curriculum of the school to qualify as an area community college. The state board shall upon approval officially classify the school as an area community college.

The standard academic workload for an instructor in arts and science courses shall be fifteen credit hours per school term, and the maximum academic work load for any instructor shall be sixteen credit hours per school term, for classes taught during the normal school day. In addition thereto, any faculty member may teach a course or courses at times other than usual day-course hours, or on days other than the regular school week, involving total class instruction time equivalent to not more than a three-credit-hour course. The total workload for such instructors shall not exceed the equivalent of eighteen credit hours per school term. Ch. 244 (S.F. 616), sec. 15, 62nd G.A. 3. Change boundaries of merged areas to take into account mergers of local school districts and changes in boundaries of local school districts, when necessary to maintain the policy of this

chapter that no local school district shall be a part of more than one merged area. The state board may also make other changes in boundaries of merged areas with the approval of the board of directors of each merged area affected by the change. At any time when the boundaries of a merged area are so changed, the state board may authorize the board of directors of the merged area to levy additional taxes upon the property within the merged area, or any part thereof, and distribute the same so that all parts of the merged area are paying their share toward the support of the school or college.

4. Administer, allocate, and disburse any federal or state funds made available to pay any portion of the cost of acquiring sites for and constructing, acquiring, or remodeling facilities for area vocational schools or area community colleges, and establish priorities for the use of such funds.

280A.26 Former community or junior colleges. Any local school district which operated a community or junior college for any period between September 1, 1964 and July 4, 1965 may continue to operate such college. Existing public community or junior colleges may be converted into area vocational schools or area community colleges in the manner provided in this chapter. In addition, an existing public community or junior college may be converted into an area vocational school or area community college by agreement between the board of directors of the local school district operating the community or junior college and the board of directors of the merged area. Such agreement shall be effective only if approved by the state board of public instruction. Such agreement shall provide for reasonable compensation to such local school district.

The decision of the arbitrators shall be made in writing and a copy of the decision shall be filed with the secretary of the board of the merged area and the secretary of the local board. The several merged areas operating area vocational schools or community colleges and the several school districts operating junior colleges or community colleges in the state of Iowa shall be entitled to receive financial aid from the state in the manner and amount as provided in this chapter. 286A.6 Rules and Regulations. The superintendent of public instruction, subject to the approval of the state board of public instruction, is hereby authorized to adopt such rules and regulations and definitions of terms as are necessary and proper for the administration of this chapter. The necessary expenses incurred by the Department of Public Instruction in the administration of this chapter may be paid from the appropriation therefor. When such conditions as unnatural weather hazards, bad roads, epidemics, and the like, occur to such an extent as to penalize any district, the superintendent of public instruction can adjust the formula by taking the average of several months attendance in lieu of the months affected by such epidemics or hazards. (C50, 54, 58, 62, sec. 286A.6.)

286A.7 Funds. (Determination - junior colleges.) School districts operating a junior or community college shall be entitled to general school aid therefor as follows: Multiply one dollar by the average daily enrollment of the students who are residents of such school district carrying twelve or more semester hours of work plus the full-time equivalent of resident students carrying less than twelve semester hours of work. Multiply two dollars and twenty-five cents by the average daily enrollment of students who are nonresidents of the district carrying twelve or more semester hours of work plus the full-time equivalent of nonresident students carrying less than twelve semester hours of work. For the purposes of this section, "work" means subjects or courses; for which credit may be earned and applied toward fulfillment of the requirements for a certificate, diploma, or degree; and which are approved by the state department of public instruction for state aid. Ch. 356 (H.F. 686), sec. 24, 62nd G.A. repealed former section 286A.7. Ch. 244 (S.F. 616), sec. 3, 62nd G.A. enacted the above new section.

286A.8 Determination-merged areas. Merged areas operating an area vocational school or community college shall be entitled to general school aid. The general school aid funds allocable to each merged area operating an area vocational school or community college shall be determined by multiplying two dollars and twenty-five cents by the average daily enrollment of students who are residents of the state and who are carrying twelve or more semester hours of work plus the full-time equivalent of students carrying less than twelve semester hours of work. Multiply this product by the actual number of days the school or college was officially in session to determine the total aid entitlement for each year for each merged area. The state aid computation shall be made separately for each area vocational school or area community college. For the purposes of this section, "work" means subjects or courses, for which credit may be

earned and applied toward fulfillment of the requirements for a certificate, diploma, or degree; and which are approved by the state department of public instruction for state aid. Ch. 244 (S.F. 616), sec. 4, 62nd G.A. enacted the above new section.

286A.9 Payment. Payment of the aid provided in sections 286A.7 and 286A.8 shall be made to each merged area, and to each school district operating a junior or community college on a quarterly basis, at the end of each quarter of the school year, which commences on July 1 and ends on the following June 30, in the following manner:

1. At the close of each school year but not later than July 5, the board of directors of each such school district or merged area shall certify to the state department of public instruction the information necessary to compute the aid entitlement, as hereinabove provided, for the school year ending on June 30 immediately preceding the said July 1. In addition thereto, each said board shall certify to the state department, its best bona fide estimate of what the same data and information will be for the school year that commences upon the said July 1, and ends on the following June 30.

2. On the basis of estimates certified, as provided in subsection one hereof, twenty-two and one-half percent of the anticipated aid entitlement for each such school district or merged area shall be paid to the district or merged area at the end of each of the first three quarters of the school year for which said estimates have been certified. The aid payment for the fourth quarter shall be equal to the difference between the aggregate aid payments for the first three quarters and the total amount of aid entitlement computed on the basis of the actual information required for calculation, as certified in the following July, plus or minus such prorata amount as may be necessary to make the aggregate total of general school aid paid to all such school districts or merged area, as the case may be, for the said year equal to the respective amounts of aid funds appropriated for payment to such districts or areas in the said year.

3. Forms for the purpose of reporting the information and estimates required under subsection one hereof shall be supplied by the state department. After quarterly payments have been calculated they shall be certified to the state comptroller for payment. Such certification shall be made to the comptroller on or about August 1, November 1, February 1, and May 1 for aid payable for the preceding quarter. The comptroller shall pay the quarterly amounts so certified forthwith. Ch. 244 (S.F. 616), sec. 5, 62nd G.A. enacted the above new section.

Temporary approval of an area community college for each of the first ~~two~~ years of operation shall be granted annually subject to approval by the state board of public instruction and the state board of regents upon certification by the state department of public instruction that said institution has followed prescribed procedures in getting started and that it gives promise of ultimate compliance with all standards contained herein.

During the second year of operation, the institution shall prepare a comprehensive self-study following the directions issued by the state department of public instruction.

5.12(2) Procedures after second year of operation.

a. During the third year of operation, the institution shall be visited by a team of six examiners equally representing the state board of public instruction and the state board of regents and chosen by the respective boards. The chairman of the team shall be selected by the state department of public instruction. The examiners shall spend a minimum of two days at the institution visited.

b. Within one month after the visit the chairman of the examination team shall submit to the state board of public instruction and the state board of regents a report, together with the institution's self-study and pertinent supplementary materials. The report shall identify the institution's strength and weaknesses on the basis of the state standards and the final pages of the report shall consist of a specific recommendation as to whether or not approval by the state board of public instruction and the state board of regents seems warranted. The head of the institution shall have an opportunity to file supplementary statements or data. The state department of public instruction shall distribute copies of the report, the self-study, any supplementary statements or data filed by the head of the institution, and related materials to the members of the state board of public instruction and the state board of regents.

c. If, after the visit by the examination team, the institution is given full approval by the state board of public instruction and the state board of regents, its approval shall continue, ordinarily, on an annual basis for a period of five years, contingent upon evidence that the institution is making consistent efforts to strengthen the areas in which weaknesses were noted. To provide this evidence of progress, the institution shall submit by April 1, of each year, a report of what improvements have been made and what changes are planned for the next year. To supplement and verify this annual report, a representative of the state department of public instruction shall visit each institution at least one day each year. However, acting jointly, the state board of public instruction and the state board of regents have the discretionary authority to review the approval in intervening years.

On the basis of this report and the visit by its representative, the state department of public instruction shall recommend to the state board of public instruction and the state board of regents whether or not an institution's approval should be continued. The institution shall be revisited by an examination team every five years. If the state department of public instruction believes that the situation in a given institution warrants such, it shall arrange for a revisit by an examination team, which shall always be preceded by a self-study, even though a period of five years has not yet elapsed.

d. If, after the visit by the examination team, the institution is given provisional approval by the state board of public instruction and the state board of regents, the institution shall be revisited by an examination team within three years after the original visit. One year after the team visit and again a year later, the institution shall be visited by a representative of the state department of public instruction who will submit an annual report as provided in standard 5.12(2)"c" herein.

On the basis of the visit and the report, the state department will recommend to the state board of public instruction and the state board of regents whether continuation of provisional approval seems warranted. Provisional approval shall continue if, in the judgment of the state board of public instruction and the state board of regents, the institution has made satisfactory progress in improving areas where weaknesses were noted by the examination team.

"Provisional approval" shall mean that the institution's strengths are judged to be greater than the weaknesses and that there is a good possibility that the weaknesses can be corrected within three years or less.

5.12(3) State financial aid. An institution that has received temporary approval, full approval, or provisional approval by the state board of public instruction and the state board of regents is eligible to receive financial aid from state funds.

5.12(4) Progress toward regional accreditation. Each area community college that has not received accreditation by the regional association is expected to demonstrate that it is making annual progress toward meriting such accreditation.

5.13(280A) Standards for area vocational schools.

Area vocational schools; with the exception of offering the first two years of college work including preprofessional education and with the exception of providing instructors, facilities and equipment for such college work; shall be subject to the same standards as outlined for area community colleges and hereinabove set forth insofar as applicable.
